Clay May Meet Sokolov

REMAINS SILENT

Frankfurt, Clay, General Lucius D. American Military Governor in Germany, refused late today to confirm reports that he is scheduled to meet with Marshal Sokolov and other two Military Governors in Berlin tomorrow.

Reports of such a meeting presumably to work out details of the Moscow agreement on currency in Berlin were persistent in responsible

Adding to the speculation was General Clay's mid afternoon decision to return to Berlin tonight. Original plans called for a Frankfurt stopover tonight to be followed by a joint Staff conference with British

Just before 'the Press meeting. General Clay spent more than an hour in a radio teletype discussion with Washington, Aldes said that the Under-Secretary of the Army, Mr William H. Draper, Jr., a former Major General in Germany, was at the other end.

SIDESTEPS QUESTIONS

As usual, General Clay sidestepped all questions on Moscow as being outside his jurisdiction. General Clay said that he did not anticipate the Moscow decisions would block or hinder the formation of a West German Government meeting of the 67 delegates from the 11 states of the three Western Zones to draw up a constitution for a new regime scheduled for September 1 in the Rhine River town of Bonn.

Wallace Pelted Henry

Burlington, N.C., Aug. 30,-Mr Henry Wallace, Third Party Presidential candidate, was struck by eggs and tomatoes as he sought to deliver a speech on Burlington's main street today.

Standing before a crowd of 2,500 Mr Wallace had just begun: "I would like to take this opportunity " when the shower

of eggs and tomatoes fell about. Surrounded by police, the Third Party leader stepped into his ear, in which were scated two Negro women, and left for another appointment on his Southern tour,

As Mr Wallace stepped from his egg-splattered car in nearby Greensboro later, he was greeted with boos. Then came another avalanche of eggs and tomatoes. One negro was seen tossing eggs. An emergency guard of police was called out.

The crowd, estimated at more than 1.000, shouted "Get on back to Russia, Henry" and "We can handle our own problems. Henry. Mr Wallace tried for about five minutes to speak,-Reuter.

Observers Are Cautiously Hopeful

COMMUNIQUE

London, Aug. 30.—London diplomatic sources feared tonight that the Moscow talks had struck a snag, but advised "cautious hopefulness" rather than either pessimism or optimism.

How to protect YOUR THROAT AND VOICE

By Herman N. Bundesen, M.D.

THE body is "wired for sound" by means of a complicated and de- wood. It is almost covered with licate little chamber, called the laryax and located at the upper end of the windpipe or traches. And there is good reason for the pampering it receives because the voice can be spoiled by any one of. number of things which cause strain or inflammation of the larynx.

Mere over-use of the voice can cause harmful irritation of the organ which produces it, leading to unwelcome changes in the voice itself. Infections or over-indulgence in alcohol also damage this delicate little instrument, thus bringing about hoarseness or giving a rasping quality to the voice.

Acute inflammation of the larynx always calls for complete rest of and her brother are the foremost the throat. The affected person should treat his throat by cold compresses on the neck and the breath- they gave to the city. ing in of steam.

In less severe cases of inflammation of the larynx, it is suggested that some alkaline spray be used in the nose and that a few drops of ephedrine be applied to the voicebox by means of a syringe.

Chronic inflammation of the larynx occurs only when the voice is used constantly, as by school teachers, vendors, and sport fans.

Noisy Surroundings

Talking in noisy surroundings, especially in the outdoors, puts a great strain on the voice. Excessive drinking and smoking also are injurious, alcohol causing a dilation or swelling of the blood vessels in the laryax.

Infected lonsils may be a cause for recurrent- inflammation of the larynx or voice-box. In such cases, removal of the tensils may be ad-

In some cases irritation may be due to the dripping of . infected material from the back part of the nose into the throat. Hence, when such irritation occurs, a careful study of the nasal sinuses is advised,

Vocal Cords

Sometimes little swellings develop on the vocal cords. These are known as singers' nodules, and they are made up of sear tissue. In practically all instances they are caused by straining of the voice. Now and then such nodules have been removed surgically; however, this involves some risk to the perfect clarity of tone required of singers. The best procedure seems to be at least three months' rest of the voice and the avoidance of strain thereafter.

Of course, there are some serious disorders responsible for continued hoarseness, such as tumours, tuberculosis, or syphilis of the larynx. Hence, continued hourseness calls using a laryngoscope which makes bow. MANY must have been stirred to hear the vigorous language in which Mr Menzies, the Australian Opposition leader, broadcast his faith in the British Commonwealth.

Let us rejoice that our young Dominions have the full courage of their convictions, and tend to scorn the qualifications and hesitations of the old world,

They are, in fact, free from the craven fear of being forthright which besets so much of our own statesmanship.

That, I think, is why our people, when they hear these vigorous voices from overseas, catch in them an echo of a confident spirit that once belonged to the Motherland.

And then they proceed to wonder what has become of that spirit.

COUNTY CRICKET

Champions Go Down In An Innings Defeat

London, Aug. 30.—In contrast to Saturday, when batsmen dominated the County cricket programme, bowlers came more into their own today, although there was no weather reason for this.

As a result, Warwickshire, Hampshire and Glamorgan all had to follow on, and while Warwickshire made sure of avolding the innings defeat just before stumps were drawn, Hampshire are still in danger while Glamorgan were well and truly beaten.

This setback for the new County champions was surprising, but perhaps they were taking things easily after their championship triumph.

Jack Walsh, an Austrolian leg break and googly bowler, was the pace, but Johnston's out-swingers main cause of Glamorgan's collapse with a match analysis of 14 for 80, At 34, however, Johnston changed taking seven for 29 between lunch to bowling slow round the wicket and tea.

Ord, of Warwickshire, with a century in about four hours enabled his County to make a better show in their second innings, while the only other century-maker today was of Northamptonshire, who hit 18 fours off the Essex' attack during a stay of three hours 40 came the first man of the tour to

minutes. Essex had earlier taken their score to 514, their highest of the senson. Other good bowling feats were Foord's four for 12 spell for Yorkshire against Sussex and McMahon's seven for 108 for Surrey against Hampshire. He bowled unchanged for three and three-quarter hours to send down 45 overs.

CLOSE OF PLAY SCORES

The close of play scores were: At Lords: Middlesex 379; Warwickshire 110 (Slms 4 for 38, Young 3 for 11) and 270 for 6 (Ord 134, Donnelly 55).

At Choton: Essex 514 (Pearce 62, Ray Smith 60): Northamptonshire 313 for 4 (Brookes 55, Davis 120, Redman, c Hassett, b Johnston Oldfield 74).

Somerset v. Australians

Taunton, Aug. 30. - The Australian cricket tourists beat Somerset by an innings and 374 runs here today.

A combination of good bowling by McCool and Johnston, with weak and spiritless batting, brought about the double collapse of Somerset in under four hours before tea on a pitch in no way different from that on which the Australians made 560 for 5 on Saturday.

Whether bowling medium, fust or

WOMEN MAKE BETTER ALL-ROUNDERS

By "RECORDER"

The women's athletics at the London Olympic Games will be principally remembered for two facts. The first of these is Fanny Blankers-Koen, but, more important, the London Games were of special significance to women's athletics for the extension of the programme from five events to nine.

Athletics have taken a long time to gain recognition as a major sport for women, There is too much in the sport that is masculine. But people who have seen some of the newsreel closeups of the women's events at Wembley will be inclined to agree that at London, at least, the women did look feminine enough.

The element of romance seems also 21 to have crept into women's athletics o for both the hurdles champions, Fanny Koen and Maureen Gardner, have Joined in matrimony with

their respective trainers, The Blankers-Koen union should be particularly productive of an athletic wonder for Mr Blankers was once European and English AAA. Champion in the hop, step and jump with best performances of over 50 feet. Mrs. Blankers is the world record holder for the women's sprints, hurdles, high and long jump.

The young Blankers-Koens should, It seems 'only reasonable, have the speed and spring to outjump -an Owens at this best,

Another interesting point brought; ent by the women's performances 10. G. V. Lovso-Nielsen at the London Games was that it is apparent that women make better 11. D. M. Batter (Britain) ... 12.6 12. B. Bergendorff all-rounders.

MEN ARE MORE LIMITED

It is a strange point about men that when they do excel, it is usually within a limited scope. There has rarely, if ever. · McKENNEY ON BRIDGE

Finesse Fails, Puts Declarer on Spot

BY WILLIAM E. McKENNEY

THE South Hills Civic Club of for collar bone? I Pittsburgh, Pa., recently held a party at the South Hills Country Club to organise the Children's Cancer Fund of Pennsylvania. About ten years ago the Children's Cancer Fund of New York was organised and has accomplished a great deal in the fight against cancer in children.

My good friend John A. Barry is aiding the cause in Pittsburgh and has interested his brother, Dr. James Barry, who until recently was resident physician of the Children's Hospital in that city.

We played some bridge after the party and today's unusually interesting hand came up. The two Barry brothers were my opponents, but the doctor was the one who handled the play.

I opened the king of clubs, and when it held, I continued with the club ace, which Dr. Barry trumped with the four of spades. He then took two rounds of trumps, and when I showed out on the second round, he did not make the mistake of pulling the other two

trumps in my partner's hand. Instead he led the queen of diamonds and took the finesse, my. partner winning with the king and returning the queen- of clubs. I knew then that if the doctor made the mistake of trumping this, his contract would be defeated.

But he thought for a while and then calmly threw away the aco of hearts on the queen of clubs. Now if East continued with a club. declarer could trump it in dummy, lead a heart to his hand, pick up the rest of the trumps and claim the balance of the tricks.

Ignored By Jews

Jerusalem, Aug. 30.—There was no response when United Nations observers in Jerusalem today called on Jews and Arabs to withdraw from positions surrounding the Red Cross centres at Government House and the Arab College so that they could form neutral zone around the buildings, it was learned tonight.

The Arnb Legion , today claimed Jewish truce violations throughout the past 24 hours in this area where the south Red Cross sector was due to become a demilitarised neutral zone at noon GMT.

A Legion spokesman said that a fast Jewish aircraft was turned back by anti-aircraft fire after flying over the Mount of Olives and the Sheikh Jarrah sectors.

The Arab spokesman declared that Jewish attacks on Arab villages south of Jerusalem were repulsed, while three Jews who tried to infiltrate through Arab lines were shot dead.

NEUTRAL ZONE PLAN

The Red Cross zone south of the Holy City was to become a neutral area today after acceptance by the Jews and Arabs of a United Nations plan to check the sporadic fighting in Jerusalem which had threatened to extend through the whole of Palestine.

Under the plan, all military personnel, and arms and equipment were to be moved from the zona and fixed military installations
